

iCLEBO  
INTELLIGENT CLEANING ROBOT

*Arte*

# WORLD'S BEST VACUUM CLEANING ROBOT iClebo Arte

## Combination of Technology and Art

A cleaning robot that encompasses innovative technology and artistic value.  
Experience excellent performance of iClebo Arte

## FEATURES

### Smart Engine Algorithm

iClebo Arte has about 50 navigation sensors that calculate 200 times/sec and analyze surroundings **10,800 times/sec**. It cleans every corner of house meticulously.

### Ultralight and Slim

Easy to carry ultralight **2.8kg** of weight and slim **8.9cm of height** can clean beneath sofa or bed.

### Triple CPU

Triple CPU of iClebo Arte allows accurate space analysis, better cleaning performance, and longer operating time.

### High Energy Efficiency

Standby power of **0.8W** is lowest among competitors and achieved through product design that optimizes energy efficiency. Operating time of **160 minute** is twice longer than that of competitors and helps clean wide area.

### World's Best Cleaning Performance

Won 1st place at German Cleaning Robot Performance Test!

Triple blade + Strong Rotating Power (816 revolution/min) + Vacuum can even clean fine dust

### Can Climb up to 20mm Doorsil

iClebo Arte can climb upto **2cm** of doorsil or carpet to clean every corner of house.

· need to select "climb" on remote controller

## SPECIFICATION

ITEM	DESCRIPTION
Battery	Li-ion
Cleaning time	160 min (Max.)
Battery (Current)	2,200 mAh
Battery (Voltage)	14.8 V
Cleaning method	Vacuum, Brush, Mop

ITEM	DESCRIPTION
Noise level	58 dB
Standby consumption	0.9 W
Dimension (H X Dia)	8.9 x 35 (cm)
UI	Touch panel
Area recognition	Camera and Gyro sensor
